

Kaihan Litepaper

The restaurant rewards app. Visit your favourite restaurants and get rewarded.

Overview

Kaihan is an initiative dedicated to enriching the dining experience for both restaurants and their esteemed patrons. By leveraging a sophisticated point system, patrons are duly rewarded for their frequent visits. Simultaneously, restaurants are empowered to innovate, offering exclusive menu selections and curated courses exclusively to NFT holders. This ensures privileged access to member-only delicacies and specially orchestrated events and experiences.

What we do

Kaihan focusing on providing restaurants with more ways to earn, while also giving users a more intimate experience with the restaurants they love.

Elevate Your Culinary Journey with Kaihan

Kaihan is designed to redefine the gastronomic landscape, fortifying the bond between restaurateurs and their valued patrons. Our objective is dual-faceted: to empower restaurants with additional avenues for revenue generation and to offer diners an enriched, exclusive culinary experience intertwined with the establishments they cherish.

Our approach is multi-dimensional:

For Restaurants:

Introduce a structured membership hierarchy for clientele engagement.
Organize bespoke events to celebrate and reward your devoted patrons, including curated tasting sessions, merchandise launches, and more.
Launch distinct NFT collections that resonate with special offerings, such as novel tasting menus. Foster a profound rapport with your patrons, amplifying their loyalty.

For Patrons:

Champion the growth of your cherished dining establishments.
Unlock exclusive privileges based on your membership tier and accumulated points.
Utilize a dynamic point system that chronicles your visits and affinity to a specific restaurant.
Personalize your dining profile reflecting your order preferences and spending patterns.
Ascend to a coveted 'regular' status and relish the rewards that accompany this distinction.

Tokenomics

Total Supply 4,837,890,000
Burn & Drop allocation 70% - Burn & Drop
LP allocation 30% - LP is locked for 1 year
Sell Tax 5%
Buy Tax 5%

Membership

Memberships are a new way for customers to get connected with their favorite restaurants.

Become A Regular

Commence each year by securing a membership to your top-choice restaurant through Kaihan. With a tiered system beginning with a complimentary first tier, the membership perks range depending on your chosen tier. Each establishment has the autonomy to personalize its membership benefits, allowing for a diverse array of offerings—from gourmet courses to exclusive merchandise and handcrafted cocktails. Detailed offerings for each restaurant can be browsed on our platform.

Memberships are exclusively available for acquisition via our proprietary token, \$KAIHAN. Embracing this membership ensures that each dining experience not only satiates your palate but also rewards you with points. These points serve dual purposes: fortifying your bond with the restaurant and enhancing your token allocations, reflecting your loyalty. As your points accrue, your stature as a recognized regular amplifies, promising an increasingly bespoke dining experience with establishments recognizing your commitment.

Cultivate a Loyal Clientele with Kaihan

Kaihan empowers restaurants to craft memberships that resonate deeply with their devoted patrons. First-time explorers receive guided suggestions for tier inclusions, while seasoned participants enjoy complete autonomy over membership configurations. Perhaps last year's data indicated a penchant for signature cocktails over set menus? Adjust your offerings to include a specified number of complimentary cocktails in your tiered memberships. This innovative system offers restaurants a lens into the patterns of their clientele—understanding their spending habits, visit frequency, and more. Ultimately, Kaihan's goal is to enrich the restaurant-patron bond, ensuring a memorable and tailored experience for every diner.

Please note that Kaihan is an evolving project, and the aforementioned details might undergo modifications in the future.

NFTs

Memberships for the restaurants will come in the form of NFTs. These will be on the blockchain and will give access to various exclusive items the restaurant will provide.

NFTs: Transforming Memberships and Elevating Exclusivity

At the onset of each membership cycle, Kaihan will meticulously design and release membership packages, embodied as NFTs. Patrons have the discretion to select from a spectrum of NFT tiers, each granting access to a distinct array of gastronomic experiences and privileges curated by the restaurant.

Functioning beyond mere tokens, these NFTs augment your personal dining portfolio, showcasing your accumulated points and offering restaurants a holistic view of your dining preferences and history.

Exclusive NFT Releases: A New Dimension to Culinary Engagement

Beyond memberships, Kaihan provides restaurants with the tools to mint unique NFTs, symbolizing limited-time offerings or exclusives. Whether it's an avant-garde tasting menu, a merchandise collection, or an innovative cocktail ensemble, restaurants can encapsulate these offerings within an NFT, both as a testament to its exclusivity and a mechanism to measure patron interest.

For culinary enthusiasts, acquiring these limited NFTs not only enhances their connection with the restaurant but also contributes points to their profiles, further refining their dining journey. All NFT transactions will be facilitated on the Kaihan platform, with transactions being exclusively conducted using the \$KAIHAN token.

Each membership season, we will create carefully curated membership packages and present them to the community in the form of NFTs. Users will be able to acquire tiers of the NFTs of their choice. Each tier will allow you to access various unique features that the restaurant provides.

These NFTs will work towards developing your own unique profile and show the restaurant how many points you've accumulated and help the restaurants know what kind of customer you are.

NFTs as exclusive releases

NFTs can also be represented as unique drops for restaurants if they wish to add more to their presence on our platform. On Kaihan, restaurants can choose to release an NFT to represent something limited they are doing as well. For example, if a restaurant was doing a merch drop, an experimental tasting menu, new cocktail menu etc. They could do an NFT to represent this limited time offer. This will allow them to gauge interest in such an item for their restaurant but also provide those die hard fans of their restaurant with more ways to get more involved.

These releases can also earn customer points that can help build out your profile.

These NFTs will be purchasable on our Kaihan platform and with the \$KAIHAN token.

Rewards

Earn rewards from your favorite restaurants with Kaihan.

Elevate Your Dining Experience with Kaihan Rewards

Every interaction at participating restaurants—whether it's savoring a signature dish or indulging in a crafted cocktail—will earn members valuable points. Accumulate these points and seamlessly exchange them for the esteemed \$KAIHAN token, your gateway to exclusive NFTs and a myriad of other unique offerings on the Kaihan platform.

Referral Incentives: Expand the Kaihan Community and Reap the Benefits

Champion the Kaihan experience with friends and become an ambassador for your favorite eateries. By introducing new members to our platform, you'll gain bonus points, paving the way for potential merchandise acquisitions or unlocking advanced membership tiers. Furthermore, should you introduce us to a restaurant that subsequently joins the Kaihan community, a special reward awaits you in recognition of your contribution.

Security

Ensuring Restaurant Commitment and Consumer Assurance

At Kaihan, we engage collaboratively with restaurants, ensuring they can fulfill the expectations set by their membership offerings. To maintain the integrity of this promise, restaurants are required to place a deposit upon joining our platform. Should unforeseen circumstances arise—such as a restaurant's closure or inability to honor its membership commitments—we are equipped to utilize this deposit to offer reimbursements to affected membership holders.

\$KAIHAN Staking

Stake your \$KAIHAN and get access to other tokens.

Token Staking with \$KAIHAN

At Kaihan, we're dedicated to expanding your investment potential. By leveraging our advanced staking pool, you have the unique opportunity to stake your \$KAIHAN tokens and in return, earn a diverse array of other tokens. Our platform offers a wide selection of tokens for which you can opt to stake, ensuring flexibility and choice tailored to your preferences. For a seamless staking experience and to explore the variety of tokens on offer, simply visit our dedicated platform and make your selection.
